

Project Design Phase-I - Solution Fit Template

Define CS, fit into CC Focus on J&P, tap into BE, understand RC	1. CUSTOMER SEGMENT(S) CS Vision is crucial for human beings and this application enables the blind to interact with the rest of the world.	6. CUSTOMER CONSTRAINTS Conversations can be challenging for those who have hearing loss, and some may feel lonely. The impairment and deterioration of cognitive function are also linked to hearing loss.	5. AVAILABLE SOLUTIONS The initiatives seek to create a system that can help blind people to see and feel their environment	Explore AS, different
	2. JOBS-TO-BE-DONE / PROBLEMS J&P The topic is pushed to obscurity by being blind; intensely introverted. Empowerment is necessary for this society in an unequal world. Despite people's inherent nature, technology should establish a platform or a world of equality.	9. PROBLEM ROOT CAUSE RC Major element Perhaps they struggle with self-esteem or were born blind as a result of mishaps, traumatic events, or a family history of anxiety disorders.	7. BEHAVIOUR BE Blind persons are less social with those who don't understand sign language, which makes them feel lonely and encourages them to become introverted.	

3. TRIGGERS TR Barriers like communication with others will trigger them to learn braille.	10. YOUR SOLUTION SL The main aim of the project is to develop the system that converts Object's and obstacle into a human hearing voice, as well as convey the position of the Object's and obstacle
---	--

8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE Blind people hear the music through audio like phone call 8.2 OFFLINE Specially abled people can communicate with normal people through braille
--

<div><div>4. EMOTIONS: BEFORE / AFTER</div><div>EM</div><div>BEFORE</div><div>It is very difficult for blind to do their work independently tonormal people .Especially in emergency situation they depend on other</div><div>AFTER</div><div>It is manageable and easy for them to see and do their work on their own</div></div>
